## Item # X-945-6446, Tetraethyleneglycol Dimethacrylate

Product Name: Tetraethylene Glycol Dimethacrylate CAS#: 109-17-1 EINECS/ ELINCS: 203-653-1

The addition of an ethylene oxide unit to this product increases its reactivity and water absorptivity. It can be used as a primary constituent in anaerobic adhesives. Tetraethyleneglycol dimethacrylate is also sometimes referred to as TEGDMA or PEG-4 Dimethacrylate.

## TYPICAL PROPERTIES

Molecular Formula	C <sub>16</sub> H <sub>26</sub> O <sub>7</sub>
Molecular Weight	330.4
	330.4
Purity	>90
Color (APHA)	<25
Inhibitor	MeHQ – 80-120 ppm
Refractive Index	1.461
Toxic Substance Control Act List	Listed
